BITTER GMBH
ANLAGENBAU & FÖRDERELEMENTE

Heavy-Duty Conveyor Systems & Components

220+
DELIVERED
CONVEYOR SYSTEMS

Conveyor Systems

Custom-made solutions
Optimized movements and speeds for efficient processes.

Special machines
Automate tasks and make your production future-proof.

Everything from a single source
Planning, engineering, manufacturing, prototyping, contract machining.

INDUSTRIES

- Wood industry
- Metalworking
- Wood-based materials industry
- Foundry industry
- Paper industry
- Building materials industry
- Logistics
- Food industry
- Recycling

Support Rollers and Rolls

Any size
Up to ⌀ 1,200 mm, length up to 6,000 mm

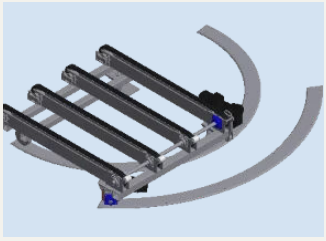

Any material
Steel, stainless steel, aluminum; coated or rubber-lined

Any application
With sprocket, drive shaft, pulley or groove

... as well as many other options.

Horizontal transfer stations

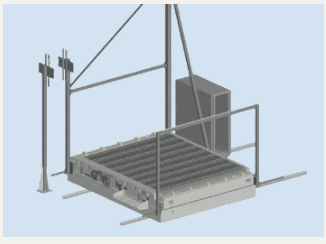

Tilters

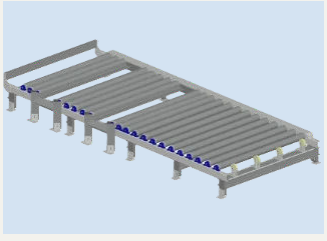

Alignment conveyors

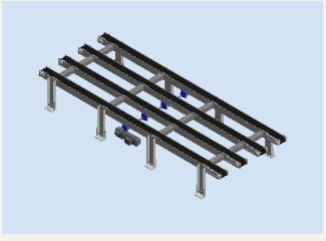

Lifting devices

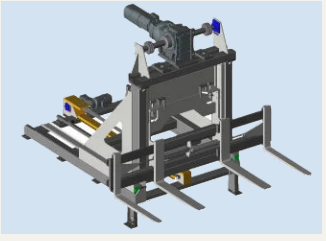

Transfer cars

Roller conveyors

Chain conveyors

Fork lifting units

About us

35+
YEARS

Bitter Anlagenbau GmbH stands for the development and manufacture of practical conveyor elements. Everything from a single source: custom-made plant solutions that make your production more efficient and future-proof.

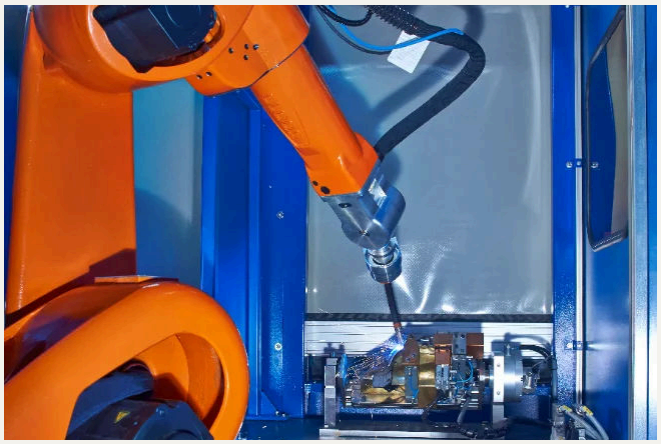

OUR MISSION

Custom-made special machines that combine technology, efficiency and sustainability. This is how we strengthen our customers' competitiveness in the long term.

Contract Machining

You can efficiently outsource specialized manufacturing and machining work. With state-of-the-art machines and technologies, we produce precision components for heavy-duty plant engineering and conveyor technology.

Our services include: milling, turning, welding, drilling and grinding, tailored to your specifications, with the highest quality and durability.

MACHINING

CNC milling
Width 2,500 mm
Length 13,000 mm

CNC turning
max. ⌀ 1,200 mm
Length 6,000 mm

Conventional turning
max. ⌀ 580 mm
Length 3,150 mm

Dynamic balancing
of rolls
up to 6,000 mm length
